- ✓ Communication Tools: Enable secure messaging, email, and notification systems for students, teachers, and parents.
- ✓ Reporting and Analytics: Generate detailed reports and analytics for data-driven decision-making.

➤ **Responsibilities :**

- ✓ Design and implement user interfaces using Reactjs, CSS, BootStrap, and JavaScript.
- ✓ Develop responsive and mobile-friendly web applications.
- ✓ Write clean, efficient, and well-documented frontend code. Work with client-side team on critical story.
- ✓ Integrate with backend APIs to fetch and display data.
- ✓ Design and implement server-side logic using Node.js.
- ✓ Develop RESTful APIs to handle requests and responses
- ✓ Write clean, efficient, and well-documented backend code.
- ✓ Implement database integration using NoSQL databases like MongoDB.
- ✓ Ensure data security and authentication.

❖ **Full Stack Developer | Argus Systems | Jan 2022 –Present •(Ecommerce Website -company Product).**

- **Back-end Technologies:** NodeJS (Express JS), Micro Service Architecture, MVC, Rest API, Json.

➤ **Front-End Technologies: ReactJS, BootStrap, Material UI**

➤ **Database:** MongoDB.

➤ **Server:** NodeJS ➤

➤ **Client:** ReactJS ➤

Description

- ✓ An e-commerce platform that allows users to browse and purchase products online.
- ✓ User Management:
 - User registration and login
 - User profile management
 - Password Recovery
- ✓ Product Management:
 - Product catalog with categories and subcategories
 - Product details page with images, description, and reviews
 - Product search and filtering
- ✓ Shopping Cart and Checkout:
 - Shopping cart with quantity management
 - Checkout process with payment gateway integration
 - Order summary and confirmation
- ✓ Payment Gateway Integration:
 - Integration with payment gateways like PayPal, Stripe, etc.
- ✓ Order Management:
 - Order tracking and status updates
 - Order cancellation and refund management
- ✓ Customer Support :
 - Contact us form with email support
 - FAQ section

➤ Responsibilities

- ✓ Design and implement user interfaces using Reactjs, CSS, BootStrap, and JavaScript.
- ✓ Develop responsive and mobile-friendly web applications.
- ✓ For state manage : REDUX/TKT use.
- ✓ Write clean, efficient, and well-documented frontend code. Work with client-side team on critical story.
- ✓ Integrate with backend APIs to fetch and display data.
- ✓ Design and implement server-side logic using Node.js.
- ✓ Develop RESTful APIs to handle requests and responses
- ✓ Write clean, efficient, and well-documented backend code.
- ✓ Implement database integration using NoSQL databases like MongoDB.
- ✓ Ensure data security and authentication.
